MARGARET ILGENFRITZ - ORCHIDS
Monroe, Michigan, July 10, 1953

Here is a group of seedlings which will produce many show blooms. They are among the newest and best crosses being offered today. Prices are right and the quality is tops.

COLORED HYBRIDS

E-13 C Harry Gray X Lc Barbarossa: A good sized dark bloom with bronze overtones is expected from this cross. Blooming time will vary. 3" pot \$4.00

E-16 C trianae X C Clotho: A pink-rose color with good dark lip should be the result of this cross. Winter is blooming time. 3" pot 4.00
3½" 5.00

G-10 Lc Titymoma var. Supreme X C Belgica var Robert Doig: A very popular cross. The bloom will have excellent shape and texture, very even, dark lavender color with full dark lip. Many show blooms will be produced from this cross. December-January blooming time. 2½" 3.00
3" 7.50

G-11 C Amabilis Slotter's var X C Crepuscule var Crimson Glory: Another excellent cross. Will produce very dark, well shaped, large blooms with excellent red lip. March - June. 2½" 2.50
3" 4.00

G-15 Lc Angnon var Flora X C Amabilis, Slotter's var: A particularly well-shaped, dark bloom will be the product of this very good cross. May - June 2½" 3.00

G-19 Lc Sevigne X Lc Canberra var Prince of Orange: This cross will produce reddish-salmon blooms of good size. Much in demand. Various blooming times. 2½" 3.00

R-23 Lc Princess Prudence X Lc Ravenglass: These are two really outstanding parents. They are among the latest and choicest of the very fine, very dark, very large, newer hybrids. Fall and winter. 2½" 2.50
3" 4.50

R-54 Lc Ludgate X Lc Princess Margaret: Top quality, richly dark, winter bloom will be produced by these seedlings. 2½" 2.50

T-12 C Jevan X C Mrs. Frederick Knollys: This will be a fine commercial hybrid, predominately December. 3½" 5.50

A Group of top quality C trianae from an excellent strain, producing fine blooms from December to February. Special 5" & 6" 4.50
